

Information 13-A / 2019-2020

As Information 13 / 2019-2020 raised doubts regarding the “closure” of the University on April 13, the Rector clarifies:

i) despite the suspension of classroom teaching activities, by virtue of the measures decreed by the Government, namely, Article 9 (suspension of teaching and non-teaching and training activities) of Decree-Law no. 10-A / 20202, of March 13, we continued the pedagogical activities online, according to Information 08 / 2019-2020, reiterated by Information 09 / 2019-2020 ;

ii) Decree No. 2-A / 2020, of 20 March (declaration of a state of emergency) and Decree No. 2-B / 2020, of 2 April (extension of the state of emergency) confirmed and reinforced the continuation of the measures enacted, even more so;

iii) the administrative services continue their activity, ensuring the essential face-to-face service, by appointment, or by remote service, and therefore the University is operating, on a working and service basis, as provided for in exceptional measures;

iv) the closure of services on April 13, is justified by the imposition of Article 6 of Decree No. 2-B / 2020, of April 2.
