

UNIVERSIDADE  
FERNANDO PESSOA

Dear students,

We hope you are all in good health.

As you already know, the gradual return to classroom activities for some curricular units with laboratory and clinical components will occur in the near future.

The Health and Occupational Risk Service recalls that you should be aware of the appearance of symptoms related to COVID-19:

Fever (temperature  $\geq 38.0^{\circ}\text{C}$ ) (recommended to measure twice a day)

Cough

Sore throat

Tiredness and muscle pain

Breathing difficulty

New loss of smell and taste

In the event of any of these symptoms appear, you should not go to the University and contact immediately the SNS24 Line (+351808242424) and follow the instructions given to you.

Failure to attend laboratory and clinical classes for the reason explained above needs to be justified by the competent health authorities.

Preventive attitudes fight the spread of COVID-19:

Hand sanitization

Breathing good practices

Physical distance

Wearing a mask in the community

We appreciate your attention and collaboration!

Health and Occupational Risk Service
